SAND is a non-profit organization whose mission is to provide a forum where scientists, philosophers, spiritual practitioners, and artists gather to explore and advance embodiment and enactment of the new paradigm, grounded in both cutting-edge science and the ancient wisdom of nonduality - the deep understanding of the interconnectedness of life.

The flourishing of this exciting international community reflects and depends upon this interconnectedness, so if you or your organization would like to join us in partnership or sponsorship, or if you would like to jump aboard the team of volunteers who contribute their gifts and talents in large and small ways year round, please come talk to one of us!
